

User Demonstration Story: Globex Industries Ltd

SJIBL CORPORATE TRANSACTION BANKING (CTB) PORTAL

SCENARIO CHARACTERS

- **Tania Mahmud** (CFO / Maker): Responsible for reviewing balances and preparing transfers.
- **Rashed Chowdhury** (CEO / Checker): Responsible for final verification and authorization of high-value payments.

Step 1: Secure Authentication

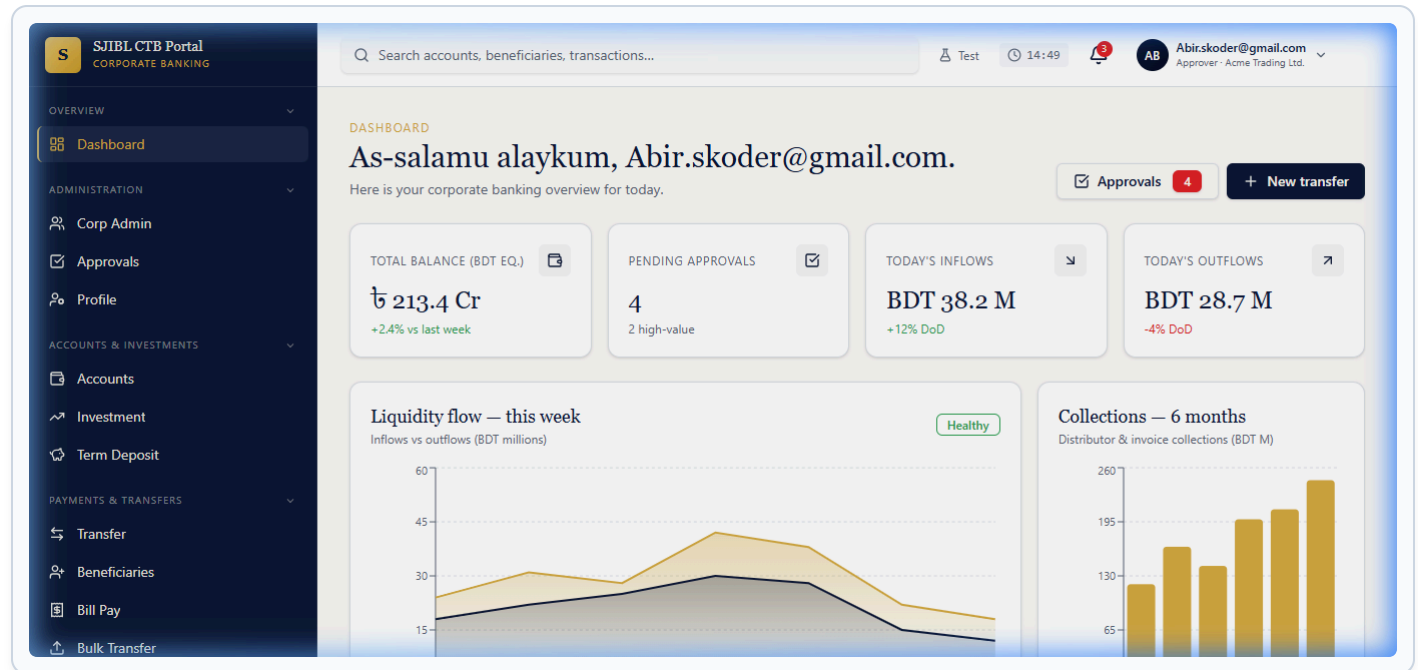

Tania Mahmud navigates to the SJIBL Corporate Transaction Banking portal. The portal enforces end-to-end TLS encryption and displays the secure login page. Tania inputs her corporate credentials and entity ID (Globex Industries Ltd).

The screenshot displays the login interface for the Shahjalal Islami Bank Corporate Transaction Banking portal. The left side features a dark blue background with the bank's logo (a yellow square with a white 'S') and the text 'Shahjalal Islami Bank PLC'. Below this, the heading 'Corporate Transaction Banking, the Shariah way.' is prominently displayed. A descriptive paragraph states: 'A unified portal for payments, trade finance, liquidity and collections — built for corporate treasurers, with Maker–Checker–Approver controls and bank-grade security.' Below this, a small yellow shield icon is followed by the text 'ISO 27001 · PCI-DSS aligned · End-to-end encryption'. At the bottom left, the copyright notice '© 2026 Shahjalal Islami Bank PLC · All rights reserved' is visible.

The right side of the page is a light gray area containing a white 'Sign in' form. The form has the title 'Sign in' and the subtitle 'Access your corporate banking portal'. It includes two input fields: 'Corporate username' with a placeholder 'e.g. acme.treasurer' and a user icon, and 'Password' with a placeholder '.....' and a password icon. A 'Continue' button is positioned below these fields. To the right of the password field is a 'Forgot?' link. Below the 'Continue' button are two links: 'Forgot username' and 'Forgot both'. At the bottom of the form, a 'Demo' note states: 'Demo: any username/password works. OTP is 123456.'

Step 2: Dashboard Overview & Shariah Notice

Upon successful authentication, Tania is greeted by the home dashboard (As-salamu alaykum, Tania). She immediately sees the consolidated balance widgets, weekly liquidity charts, and pending approvals. At the bottom, the Shariah Notice reminds her that all investment facilities correspond to Islamic financing principles (earning profit rather than interest).

Step 3: Account Balance Audit

Tania clicks on the Accounts menu to inspect Globex's current liquid positions. The portal lists the accounts along with their real-time ledger and available balances:

- Current — Operations: BDT 124,562,300.00
- Current — Payroll: BDT 18,450,000.00
- USD Operating: USD 845,200.00

ID	Account No	Account Name	Account Type	Ccy	Ledger Balance	Available Bal	Action
ACC-1001	0123100001	Globex Industries Ltd — Operations	Al-Wadeeah Current	BDT	124,562,300.00	124,562,300.00	View
ACC-1002	0123100002	Globex Industries Ltd — Payroll Account	Al-Wadeeah Current	BDT	18,450,000.00	18,450,000.00	View
ACC-1003	0123100003	Globex Industries Ltd — USD Operating	Al-Wadeeah Current	USD	845,200.00	840,000.00	View

Step 4: Initiating a Payment (Maker Action)

Tania needs to pay Globex's manufacturing supplier. She clicks New Transfer to launch the fund transfer wizard. She chooses RTGS for instant high-value clearance, selects the Operations Account as the debit source, enters the beneficiary details (Globex Industries, account 9981200022), and inputs the payment amount: BDT 4,500,000. Selecting Supplier Payment as the payment purpose, she clicks Submit. This places the transaction in a "Pending" status, awaiting verification in the Checker's queue.

The screenshot displays the 'New Fund Transfer' form within the SJIBL CTB Portal. The interface includes a dark sidebar with navigation options: Overview, Administration (Dashboard, Corp Admin, Approvals, Profile), Accounts & Investments (Accounts, Investment, Term Deposit), and Payments & Transfers (Transfer, Beneficiaries, Bill Pay, Bulk Transfer). The 'Transfer' option is highlighted. The main content area shows the 'New Fund Transfer' form with the following fields:

- TRANSFER TYPE ***: Select transfer type (dropdown)
- FROM ACCOUNT ***: Select from account (dropdown)
- BENEFICIARY NAME ***: Text input field
- BENEFICIARY ACCOUNT ***: Text input field
- BANK / BRANCH**: Text input field
- CURRENCY ***: Select currency (dropdown)
- AMOUNT ***: Text input field
- VALUE DATE ***: dd/mm/yyyy (calendar icon)
- PURPOSE OF PAYMENT**: Select purpose of payment (dropdown)

Step 5: Checking User Security Profile

Tania reviews her profile settings by navigating to Profile Management. She verifies that her two-factor authentication (2FA) is successfully configured as Enabled to comply with bank security mandates.

Step 6: Authorization Queue (Checker Action)

Rashed Chowdhury (CEO / Checker) logs into the portal. He goes to the Approval Dashboard to review pending transactions. The system displays the tasks submitted by the Maker team, classified with Maker IDs, transaction reference details, and risk evaluations. He identifies Tania's submission: reference TXN-92841 (RTGS BDT 4,500,000 to Globex Industries).

Step 7: Final Approval & Real-Time Execution

Rashed clicks on reference TXN-92841 to open the detail view. He inspects the remarks, invoice validations, and maker identity. Confident in the accuracy of the transaction, Rashed clicks Approve. The portal updates the transaction status to Approved in real-time. A secure STP (Straight-Through Processing) message is generated and dispatched to SJIBL's Core Banking System to execute the transfer.
